

6 Recommended Selection Decision Authority

Figure 2 identifies JIG recommendations on where selection should occur and who should perform it. The final column

(Assignment) indicates which unit routes the format to LS cataloging and assigns the work to a custodial location.

¹ Only new serials or serials with title changes are separated from the main workflow to receive a selection decision. Serials with an existing record are processed according to that record. Selection decisions for serials with title changes are routinely reconsidered.

² The location where the Serial ACQ SO will perform selection activities is not yet determined.
